

growing groceries

A series of monthly classes providing seasonal, practical information and skills to help you successfully grow your own food.

9:00 AM–12:00 Noon
2nd Saturday of each month
\$15/class (scholarships available)

March 13 Spring has Sprung!

9:00 AM–12:00 NOON: Bayview School

Time to work the soil, and plant those hardy veggies!

INCLUDING:

- the essential elements of soil
- improving your soil with compost and amendments
- the basics of making compost
- cool-weather plants for the early spring
- top tips for the month
- Q & A (bring your questions!)

*Presenters: Janet Hall, WSU Extension Service,
David Ridle, Skagit Farmers Supply
Cary Peterson, Growing Groceries Coordinator*

NEXT CLASSES IN THE SERIES

APRIL 10: The time is now: spring plantings and irrigation.

MAY 8: Is it warm enough...yet?

JUNE 12: Better late than never: summer planting.

JULY 10: Yikes, it's time to plan for winter vegetables.

AUGUST 14: The last plantings, and gearing up for cover crops.

SEPTEMBER 11: Can it be summer just a little longer?

OCTOBER 9: Getting your garden ready for next season.
